## CONSTRUCTION SERVICES

CLASS A CONTRACTOR

Renovations and interior build-outs are a specialty for OI Construction. The vast majority of our projects were completed in occupied facilities, where we have repeatedly demonstrated our ability to complete complex renovation programs without disruption to ongoing operations. These facilities have included not only corporate office buildings, but also research & development centers, academic facilities, industrial and manufacturing facilities, and retail spaces.

Our interior professionals are committed to maintaining full facility functionality, and routinely work immediately adjacent to key operations without disturbing day to day activities.

We have established partnerships with multiple suppliers and rental companies, which allows us to bring the best to our clients.

- ✓ In house design & project management team
- ✓ Supervise and manage the work, ensuring adherence to specifications, quality standards safety, schedule and costs.
- ✓ Conduct and control all project administration and documentation activities.
- ✓ Provide detailed pricing as required and manage the incorporation of any changes in the scope of work - emphasizing competitive pricing.
